

Request for Qualifications (“RFQ”)
Engineering/Architectural/Surveying Services

RFQ NO. 20-006 – Addendum No. 2 Clarification of RFQ Requirements

Forms and Exhibits:

The Non-Collusion Certificate (Page 8) and the Statement of Conflicts of Interest (Exhibit E) are not the same form. Please complete and submit both.

Exhibit A and Exhibit B are for reference only. All contract documents will be finalized once a vendor has been formally selected by the City Council.

Programming/Pre-Design/Services/Scoping Cost Estimations:

The City has estimates on a few projects that were part of our Capital Improvement Plan. There are still many projects the City will need help in identifying, designing, and obtaining costs estimates for.

Architectural Services:

At this time, the City does not foresee needing any architectural services; however, staff would still like to evaluate architectural costs if the need for said services should arise.

Grant Administration Services:

A separate RFQ for grant administration and planning services were accepted on June 10, 2020. The proposals submitted are still being analyzed by staff.
