RESIDENTIAL SERVICE
RATE SCHEDULES E-A and E-AO

APPLICABILITY

This rate is applicable to all individually metered single-phase residential dwelling units receiving electric service used solely for residential purposes through a permanent meter installation.

AVAILABILITY

This rate is available to all residential customers of the City of Brenham.

MONTHLY CHARGES

The monthly rates shall be the sum of the following charges:

Type of Charge	Description	Charge
Customer Charge	Customer charge for customers receiving single phase service	\$ 13.00
Wires Charge	Charge for distribution service	\$ 0.02828/ KWh
Energy Charge	Charge for energy supply and transmission costs	\$.075 / KWh
Power Cost Recovery Factor	Charge for adjustments in generation and transmission charges	As needed

MINIMUM MONTHLY CHARGES

The minimum monthly bill shall be the customer charge.

BILLING ADJUSTMENTS

In addition to the monthly charges, each customer shall be billed for all taxes applicable to the sale of electricity.

TERMS OF PAYMENT

All rates specified herein are net, and the gross rates for delinquent payments are ten percent (10%) higher. Each bill for service is due within fifteen (15) days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received at the City's offices or other approved payment location on or before the due date, all of the customer's utility services will be considered delinquent and subject to disconnection.

TARIFF	SECTION NO.	SHEET NO.
ELECTRIC RATE SCHEDULE	OCTOBER 1, 2021	
SECTION TITLE	EFFECTIVE DATE	

(Supersedes Rate Change Effective 01/01/20)

CHARACTER OF SERVICE

Electric service supplied under this rate schedule shall be single phase, 120/240 volt, 60 cycle alternating current delivered at a single point of service per premise to be designated by the City.

SPECIAL CONDITION OF SERVICE

1. Service rendered under this schedule is subject to the City's Rules and Regulations in effect from time to time.
2. Service will be rendered under this schedule when the City has facilities immediately adjacent to the customer's premises. If a power line extension is required to provide service to the customer, the customer's cost of the line extension will be determined in accordance with the City's extension policy in effect at the time of the extension.
3. The customer shall control voltage fluctuations caused by his equipment at his expense. A customer's equipment shall not cause voltage fluctuations that exceed 1% on the City's primary distribution system.

SMALL GENERAL SERVICE

RATE SCHEDULE E-C

APPLICABILITY

This rate is applicable to customers receiving single phase electrical service for any purpose other than use in individually metered residential dwellings, and includes service to temporary service installations.

AVAILABILITY

This rate schedule is available to all customers whose electric requirements for all uses are less than thirty (30) kilowatts of maximum demand. If the customer establishes a maximum demand of thirty (30) kilowatts or more, the monthly billing will be calculated under the Large General Service Rate Schedule and will continue to be so calculated under such rate schedule until the customer establishes monthly demands for each of eleven (11) consecutive monthly billing periods of less than thirty (30) kilowatts.

MONTHLY CHARGES

The monthly rates shall be the sum of the following charges:

Type of Charge	Description	Charge
Customer Charge	Customer charge for customers receiving single phase service	\$ 16.77
Wires Charge	Charge for distribution service	\$ 0.02749/ KWh
Energy Charge	Charge for energy supply and transmission costs	\$.075 / KWh
Power Cost Recovery Factor	Charge for adjustments in generation and transmission charges	monthly

MINIMUM MONTHLY CHARGES

The minimum monthly bill shall be the customer charge.

BILLING ADJUSTMENTS

In addition to the monthly charges, the customer shall be billed for all taxes applicable to the sale of electricity.

TERMS OF PAYMENT

All rates specified herein are net, and the gross rates for delinquent payments are ten percent (10%) higher. Each bill for service is due within fifteen (15) days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received at the City's offices or other approved payment location on or before the due date, all of the customer's utility services will be considered delinquent and subject to disconnection.

ELECTRIC RATE SCHEDULE	OCTOBER 1, 2021	
SECTION TITLE	EFFECTIVE DATE	

(Supersedes Rate Change Effective 01/01/20)

CHARACTER OF SERVICE

Electric service supplied under this rate schedule shall normally be single phase, 120/240 volt, 60 cycle alternating current delivered at a single point of service to be designated by the City.

SPECIAL CONDITION OF SERVICE

1. Service rendered under this schedule is subject to the City's Rules and Regulations in effect from time to time.
2. Service will be rendered under this schedule when the City has facilities immediately adjacent to the customer's premises. If a power line extension is required to provide service to the customer, the customer's cost of the line extension will be determined in accordance with the City's extension policy in effect at the time of the extension.
3. The customer shall control voltage fluctuations caused by his equipment at his expense. A customer's equipment shall not cause voltage fluctuations that exceed 1% on the City's primary distribution system.
4. A power factor penalty may be assessed if the necessary equipment for determining power factor is installed and if the power factor during the non-coincident peak KW demand is less than 0.95.

The power factor penalty shall be calculated by increasing the measured billing demand such that the corrected billing demand and measured KVAR yield a calculated power factor of 0.95. If the measured power factor is 0.95 or greater, the billing KW demand shall be the KW demand in accordance with the appropriate schedule.

The additional metering equipment necessary to measure or compute KVAR or power factor may be installed at any demand metered customer without notice at the discretion of the City.

EFFECTIVE DATE

ELECTRIC VEHICLE (EV) CHARGING STATIONS

RATE CLASS SCHEDULE E-G-EV

APPLICABILITY

This rate is applicable to customers receiving electric service for any purpose other than use in individually metered residential dwelling and includes service to temporary service installation.

AVAILABILITY

This tariff applies to Electric Vehicle (EV) charging stations used for public (retail) charging services and private fleet charging services. The tariff does not apply to non-retail, Level 1 or 2 residential (home) charging stations or commercial charging stations established prior to the effective date of this tariff.

MONTHLY CHARGES

The monthly rates shall be the sum of the following charges:

Type of Charge	Description	Charge
Customer charge	Customer charge for customer receiving three-phase service	The rate applicability will be based on design peak demand.
Distribution wires charge	Charges for distribution service	The rate applicability will be based on design peak demand.
Energy charge	Charge for energy supply and transmission cost	\$.075 / KWh
Power cost recovery charge	Charge for adjustments and generation and transmission	monthly

- EV Charging Stations for Retail Public Use or Private Fleet Use require a dedicated electric meter.
- The City reserves the right to implement time-based rates in the future for EV charging stations, as appropriate and based on costs incurred from its wholesale power supplier.
- The City of Brenham will use industry standards for sizing transformers and equipment based on the EV Charging Station's peak demand design load. The costs for new services or upsizing existing services for EV Charging Station is described in Section 400 Sheet 495 of the Electric Tariff.
- Customer must provide the City with the design documents for the EV charging station that clearly states the total electric design load.
- Transformers may not exceed 2,000 KVA.
- Costs for new electric services will be as described in the City Electric Rate Section, Section 400, Sheet 495, as amended.

MINIMUM MONTHLY CHARGES

The minimum monthly bill shall be the customer charge.

5. Service rendered under this schedule is subject to the City's Rules and Regulations in effect from time to time.
6. Service will be rendered under this schedule when the City has facilities immediately adjacent to the customer's premise. If a power line extension is required to provide service to the customer, the customer's cost of the line extension will be determined in accordance with the City's extension policy in effect at the time of the extension.
7. The customer shall control voltage fluctuations caused by his equipment at his expense. A customer's equipment shall not cause voltage fluctuations that exceed 1% on the City's primary distribution system.
8. A power factor penalty may be assessed if the necessary equipment for determining power factor is installed and if the power factor during the coincident peak KW demand period is less than 0.95.

The power factor penalty shall be calculated by increasing the measured coincident peak KW billing demand such that the corrected billing demand and measured KVAR yield a calculated power factor of 0.95. If the measured power factor is 0.95 or greater, the billing KW demand shall be the KW demand in accordance with the appropriate schedule.

The additional metering equipment necessary to measure or compute KVAR or power factor may be installed at any demand metered customer without notice at the discretion of the City.

LARGE INDUSTRIAL SERVICE

RATE SCHEDULE E-H

APPLICABILITY

This rate is applicable to customers receiving electrical service for any purpose other than use in individually metered residential dwellings, and includes service to temporary service installations.

AVAILABILITY

This rate schedule is available to all customers whose electric requirements for all uses are equal to or in excess of five thousand (5000) kilowatts of maximum demand at one point of delivery, or at multiple points of delivery to one contiguous facility.

MONTHLY CHARGES

The monthly rates shall be the sum of the following charges:

Type of Charge	Description	Charge
Customer Charge	Customer charge for customers receiving three phase service	\$ 113.18
Distribution Wires Charge	Charge for distribution service	\$ 0.00924/ KWh
Energy Charge	Charge for energy supply and transmission costs	\$.075 KWh
Power Cost Recovery Factor	Charge for adjustments in generation and transmission	Monthly

MINIMUM MONTHLY CHARGES

The minimum monthly bill shall be the customer charge.

BILLING ADJUSTMENTS

In addition to the base charges, the customer shall be billed for all taxes applicable to the sale of electricity.

SECTION TITLE

EFFECTIVE DATE

(Supersedes Rate Change Effective 01/01/20)

TERMS OF PAYMENT

All rates specified herein are net, and the gross rates for delinquent payments are ten percent (10%) higher. Each bill for service is due within fifteen (15) days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received at the City's offices or other approved payment location on or before the due date, all of the customer's utility services will be considered delinquent and subject to disconnection.

CHARACTER OF SERVICE

Electric service supplied under this rate schedule shall be 60 cycle alternating current delivered at a single point of service to be designated by the City, at the City's choice of the following standard voltage:

120/208	volts, three phase
120/240	volts, three phase
240/480	volts, three phase
277/480	volts, three phase
7200/12470	volts, three phase

SPECIAL CONDITIONS OF SERVICE

1. Service rendered under this schedule is subject to the City's Rules and Regulations in effect from time to time.
2. Service will be rendered under this schedule when the City has facilities immediately adjacent to the customer's premise. If a power line extension is required to provide service to the customer, the customer's cost of the line extension will be determined in accordance with the City's extension policy in effect at the time of the extension.
3. The customer shall control voltage fluctuations caused by his equipment at his expense. A customer's equipment shall not cause voltage fluctuations that exceed 1% on the City's primary distribution system.
4. A power factor penalty may be assessed if the necessary equipment for determining power factor is installed and if the power factor during the coincident peak KW demand period is less than 0.95.

The power factor penalty shall be calculated by increasing the measured coincident peak KW billing demand such that the corrected billing demand and measured KVAR yield a calculated power factor of 0.95. If the measured power factor is 0.95 or greater, the billing KW demand shall be the KW demand in accordance with the appropriate schedule.

The additional metering equipment necessary to measure or compute KVAR or power factor may be installed at any demand metered customer without notice at the discretion of the City.

**MERCURY VAPOR LUMINARIES
SECURITY LIGHT SERVICE
RATE SCHEDULES E - SL, E-SLO and E-SLT**

APPLICABILITY

This rate is applicable to all unmetered, dusk to dawn lighting where the City's existing facilities are suitable for the installation of necessary fixtures.

AVAILABILITY

This rate is available to all customers of the Municipal Light and Power System.

MONTHLY CHARGES

The monthly bill shall be \$ 13.90 per LUMINARIES.

TERMS OF PAYMENT

All rates specified herein are net, and the gross rates for delinquent payments are ten percent (10%) higher. Each bill for service is due within fifteen (15) days after issuance unless such day falls on a holiday or weekend, in which case payment is due on the next work day. If full payment is not received at the City's offices or other approved payment location on or before the due date, all of the customer's utility services will be considered delinquent and subject to disconnection.

CHARACTER OF SERVICE

Service supplied under this schedule shall consist of service to 175 watt, 250 watt, or 400 watt mercury vapor or 110 watt LED luminaries installed on wooden poles with overhead secondary service.

SPECIAL CONDITIONS OF SERVICE

1. Service rendered under this schedule is subject to the City's Rules and Regulations in effect from time to time.
2. Service will be rendered under this schedule when the City has facilities immediately adjacent to the customer's premise. If a power line extension is required to provide service to the customer, the customer's cost of the line extension will be determined in accordance with the City's extension policy in effect at the time of the extension.
3. Mercury vapor luminaries shall be installed on existing facilities of the City at no expense to the customer other than the monthly charge. Should the customer desire additional wooden poles for the purpose of receiving security lighting service, at a maximum spacing not to exceed 125 feet, the poles will be provided at a non-refundable cost of \$75.00 per pole to the customer.

POWER COST RECOVERY FACTOR

APPLICABILITY

All charges under all rate schedules, with the exception of rate schedule E-SL, may be adjusted (increased or decreased) monthly based upon the calculated Power Cost Recovery Factor (PCRF)

CALCULATION OF POWER COST RECOVERY FACTOR

Wholesale power costs will be passed through with **no** markup. This will be calculated based on actual costs and forecast of future cost and consumption. The goal is to pass all costs through on a fiscal year basis.

**DISTRIBUTED GENERATION
AVOIDED COST OF GENERATION
RATE (DG-ACGR)**

APPLICABILITY

The DG-ACGR applies to City of Brenham customers with Distributed Generations systems that are interconnected and operate in parallel with the City's electric distribution system, and "send energy" in any metering interval in a given month, to the City's electric distribution system. The DG-ACGR will be reviewed and adjusted annually based on the wholesale cost of generation (energy) from the City's wholesale supplier(s). The annual calculation period for the City of Brenham will be aligned with the City of Brenham Fiscal Year Oct 1 – Sept 30.

CALCULATION OF DISTRIBUTED GENERATION AVOIDED COST OF GENERATION RATE

The DG-ACGR will be calculated annually based on the actual cost(s) of wholesale generation (energy) charges for a 12-month period. The goal is to set the DG-ACGR annually to establish an appropriate rate for the reimbursement of energy received by the City of Brenham's electric distribution system from a distributed generation installation on a City of Brenham retail customer's premises. The formula for establishing the annual DG-ACGR is below:

DG-ACGR = Annual Generation Costs (from monthly wholesale power invoices) for 12 calendar months in a year / total annual energy purchases over the same 12-month period.

SECTION TITLE

EFFECTIVE DATE

(Supersedes Rate Change Effective May 4, 2023)

DISCONNECTS/RECONNECTS EXISTING SERVICES

For disconnects/reconnects for existing the following service fees will apply:

Service	Normal Business Hours	All Other Hours
Meter pulling and reinstalling (200 amp or less)	\$50.00	\$75.00
Service wire disconnect/reconnect	\$100.00	\$150.00

Customers requesting a meter pulled and reconnected for the same day after 4:00 PM may be offered to be connected or reconnected on the next day that is either not a City holiday or weekend. The Utility reserves the right to delay requested connections during weekends and City of Brenham holidays.

OVERHEAD / UNDERGROUND UPSIZING AND/OR DAMAGES

No electric service will be provided by City greater than 100 feet distance from the transformer (or adequate size secondary) to the meter. The Utility, at its discretion, may allow a 10% variance. Any request for upsizing a service line shall be at cost. Repairs to a damaged service line caused by customer or contractor shall be at cost.

NEW SERVICES

For New Services customers, will be charged as follows:

Class	Overhead	Underground
Residential-Single Family Lot	\$ 800.00	\$ 1050.00
All Other	Actual Cost	Actual Cost

Residential cost is based on one utility pole and one transformer. Additional poles will be charged at the actual cost.

Fees, Exclusions, Miscellaneous:

- The service cost shall be calculated by the City on the basis of new facilities, regardless of existing installations.
- Costs for boring and casing will be added based on actual costs and will not be subject to cost sharing.
- General requirements for any new electric service connection, use of right-of-way, and design requirements can be found in the City of Brenham Public Infrastructure Design Manual.
- The Utility will neither start work nor will the Utility order materials until it receives full payment.
- The fees for service not specifically addressed in this Tariff will be charged in the amount of the actual cost of performing the service.
- Equipment, facilities, and all other improvements provided through and under this policy will be owned by the Utility. Payment for extension of service does not imply any ownership rights by the Customer for Utility owned facilities.
