WORK SESSION

3. Jackson Street Park Phase I – Presentation from Burditt Consultants

Dane Rau started this topic introducing Burditt Consultants. The City of Brenham has about ½ a million dollars for phase 1 of this project. We will be asking BCDC this upcoming year for phase II funding. A few weeks ago, staff met with Burditt to outline our priorities as well as look at the entire park planning for Phase 2 in the near future.

Touching on key points in Phase I Park improvements: ADA enhancements; improved park lighting; upgraded restrooms; open air pavilion, playscapes, increased parking and overall usage of park amenities. Burditt has been asked to study an area where 4-6 pickleball courts (similar to the complex we have now) can be added once the first priority areas are addressed.

Currently additional funding will be needed to move into Phase 2 but planning for this now will enable us to have a nice layout of all future amenities at Jackson St Park.

Shane Howard with Burditt Consultants presented phase I of Jackson Street Park. The team took the top priorities and how do we prioritize the \$582,000 available for phase I hoping for another \$500,000 in phase II... What we need today is what is priority to start off in Phase I: ADA sidewalk; pathway lighting; parking, ramps; playgrounds; sport field lightening; Northside restroom & storage; Restroom/pavilion; central bridge crossing; spectator shade @ sports fields; pickleball expansion.

What do we want to repurpose the center of the park. What use do we think would be most used by our community? This will determine if we need lighting down in the center of the park. We know we will be replacing the playground as some of the current equipment is now considered vintage.

Parks Board member Ginger Bosse asked where we would be looking at additional pickleball expansion. The area that is now bocce court would be a possible location of new additional courts. There is a tradeoff of what we want to start with now and we hold off on something else because that something else will be going away in the second phase. Example Restrooms, if we fix those up now but then long-term plan is to move the restrooms, we are wasting money refurbishing current ones now. So, it is up to the City Staff and Parks Board to weigh in on what are the priorities. Dane Rau stated that the restrooms, for example, are expensive. The single unit pre-made unit at the Splashpad cost around \$200,000.

Shane spoke on what we think is priority. Parks Board Member Harvey McIntyre stated that he and his family enjoy the park, and yes, they feel safe, but if we are attracting families in the evenings, lighting should be a priority. Shane pulled the group into priorities. Everyone agrees the ADA is first on the list, then lighting follows; the board also agreed that up grading the playground is 3rd on the list. Following up number 3 & 4 would be central bridge crossing with restrooms/pavilion.

The city is looking at the Fall of 2024 for construction to start pending bids. Also discussed was Naming Rights – is there any interest in the community.

JC Robinson stated that he loved everything that was presented, loved the priority list, but thinking long term we also need to consider the fields and drainage as with the last rain the fields looked like a lake. So, unless we address drainage, the fields will continue to be an issue in a rain event. JC suggested that we move the crossover path over

toward the 2 big fields, so it lines up with the middle parking lot and is easier for handicap to access. He also stated that by the time the new Pickleball courts are built, we need to consider redoing the current courts as they have some wear and tear on the courts and have already been patched. Because the courts are low, they retain water. Courts are deteriorating.

Parks Board Member Ginder Bosse asked about the life of the pickleball courts and that they are original tennis courts over 40 years old and they need some attention. Dane Rau stated he is in talks with court experts to see if we need total replacement or repair and that is a difference between \$20,000 and \$100,000 project. JC Robinson wants Parks Board and the City to think long term and make sure we are building the park with the infrastructure for future courts.

Subject: Discuss and Possibly Act Upon the Fiscal Year 2024-25 Funding Requests from the Brenham Community Development Corporation (BCDC) for Various Parks and Recreation Projects

Date: May

Each year, the staff is able to present and recommend various projects to both Parks Board and BCDC for funding opportunity. These funds are derived from sales tax proceeds that are spent locally and are geared to enhance Parks and Recreation along with Aquatic amenities. We strive to have a mix of new amenities along with maintenance and upkeep of existing amenities which keeps our Parks System looking fresh and vibrant. We also take in account the Parks Master Plan and follow our goals and projects to the best of our ability.

Below you will see the requests that we bring to the Parks Board for consideration. We would like the Parks Board's approval to recommend the below projects funding through BCDC on the June meeting related to 2024-25 funding cycle. There are 13 projects valued at \$1.49 million dollars in this year's requests. Even though these are recommended it is still up to BCDC to comment and approve based on allocated resources in their budget for final funding.

These projects were evaluated by Parks and Recreation Staff and prioritized based on need and future value to our parks system. Due to priority, budget and status of existing infrastructure these projects are of our utmost importance.

Our 3 largest requests will be Jackson St Park Phase 2 Improvements (\$500,000), Brenham Family Park Additional Funding (\$300,000), and a Replacement Slide for the Blue Bell Aquatic Center Leisure Pool (\$350,000). All items will be shared in farther detail at the meeting on a slide show.

We respectfully ask the Parks Board for a recommendation to BCDC to consider funding these items so that we can move forward with enhancements to our park and recreation facilities.
