DETERMINATION OF WATER USAGE

The water usage for the purpose of calculating the volume charge under Monthly Rates shall be the metered monthly water consumption for the billing month. DETERMINATION OF VOLUME

The volume for the purpose of calculating the volume charge under Monthly Rates shall be one of the following:

   If the customer receives water service from more than one water supply, the water consumption from each source of water shall be summed for determining the customer's total water consumption for the purposes of calculating the volume for billing purposes under this section.
