Subject: 2020-2021 Project Update and Expense Projection

Date: October 2, 2020

Staff wanted to share with you the list of funded projects that the Brenham Community Development (BCDC) Board so graciously awarded to the City of Brenham Parks and Recreation Department in 2020-2021. We have already been working on these projects and coordinating when they will begin, conclude, and expected expense dates. Many of these projects will have to be coordinated with upcoming seasons whether that is sporting seasons such as tennis, baseball, and softball. Others we will need to prepare for openings such as the Blue Bell Aquatic Center and Season 2 of the splashpad. We are also trying to minimize closures at the Aquatic Center by coordinating projects during “Clean Sweep” week which is going on this week!

On the next page you will see when we expect expenditures to hit the books regarding final payments. On larger projects we will be working on these prior to some of the dates listed to address all the improvements prior to construction. Some projects are considered minor upgrades, and these can happen quickly. Other projects such as the covered basketball court at Jackson St Park or Jerry Wilson Park Improvements do not have a definite start date so those can be spread out later in the year.

Re: Presentation and Discussion Regarding the Addition of Phase II of the Splash Pad at Henderson Park

Parks Board Members

We would like to have a discussion regarding Phase II Improvements to the Splashpad at Henderson Park. It was a great Season 1 and the splashpad was heavily used by many residents and visitors. It added an awesome attribute to Henderson Park and we really were very pleased with how the public abided by the rules and regulations as well as parking.

Moving into Season 2 BCDC has allocated an additional \$250,000 to be attributed to the amenities that are currently at the splashpad. We knew that all amenities would not come initially but with these additional funds we are now ready to make the splashpad more user friendly and take in ideas that the public has voiced along with our own ideas to make this amenity even more enjoyable. Crystal initiated a survey at the end of Season 1 with a few questions to gain feedback. We have attached the main questions and answers to this memo for your review. The main items that the survey indicated which were mentioned multiple times were:

1. Closer Restroom Facility
2. More Picnic Areas and Seating
3. More Shade (This has already been taken care of by HEB grant)
4. Water Bottle Filling Station
5. Fence or Buffer blocking access to Street

This survey was very beneficial and many of the items listed were the same items that staff envisioned for Phase II. We wanted to get your feedback as we move forward and see what Parks Board would like us to focus on when expensing the \$250,000. We have already begun looking at a one single building style family restroom that can be in close proximity for families to use when multiple members of the family are present. We are also looking at breakout picnic or seating areas where families can have lunch and yet separate under the native pecan trees. Along with this we will need to have connectivity to the restrooms from the splashpad and also to the breakout picnic areas leading to the splashpad. With the HEB grant dedicated to a large shade over the seating wall we feel we have that amenity covered and this will be installed prior to Season 2. We also plan to place additional benches around the perimeter of the splashpad for additional seating.

If we have additional funds left, we can look at an ornamental fence or shrubbery along N. Valley St to protect from entering the roadway. We can also look at bike racks, cubbies or other amenities that will give a final touch to the splashpad.

Below are some pictures of some amenities that we are pursuing.

RESTROOM OPTIONS

Breakout Picnic Areas

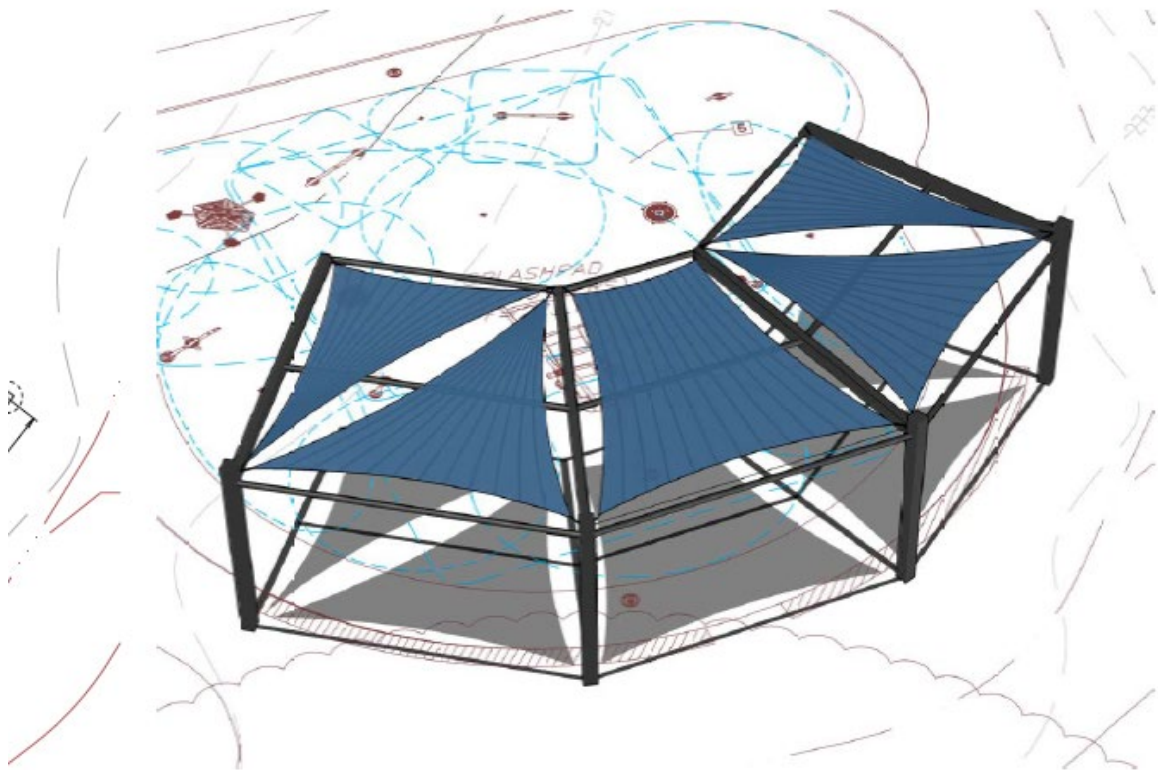

Fence Option

Shade Cover (Already Purchased will be installed prior to 2021 Season)

NOTE: ALL DIMENSIONS AND HEIGHTS MUST BE FIELD VERIFIED PRIOR TO ANY FINAL DESIGN, FABRICATION OR INSTALLATION WORK.
FINAL FOOTING TYPE AND SIZE WILL BE DETERMINED AT ENGINEERING PHASE.

PERSPECTIVE VIEW

Splash Pad Survey Responses

| What features/amenities would make your experience at the splash pad even better? | Other comments or any feedback you would like to include: |
|---|---|
| Restrooms closer to the splash pad, more seating with tables | |
| 1) Restrooms & changing area close to the splash pad, 2) more picnic benches/seating - especially in the shade | Some kinda fence between road near houses ive seen small kids on the road |
| A closer restroom and more tables or benches | The peoplenwho reside close to the splash pad toward the right side made my trips uncomfortable and one of the reasons I did not visit as often. It is creepy to just sit all day and watch these inocent kids trying to have fun. |
| Clean restroom | |
| A closer bathroom. | I live in Cypress and it's a bit of a drive, so I'd be there every day with my kids if I lived closer. But we we loved it. My son especially loved the big wheel of water. |
| Water bottle filling station, restrooms (or signage to the park's restrooms), replace the boards on the bridge from Park St. | |
| Restroom | Thank you!! |
| Closer seating and cubbies to put shoes and towels, and restrooms for my toddler so we donâ€™t have to walk so far when he suddenly has to go | There always seems to be trash or food or discarded clothes whenever we go to the splash pad. Weâ€™ve even seen abandoned diapers. Maybe there needs to be better trash can locations? |
| Restroom | Parents really enjoy the shaded area under the trees. They can watch their kids from this side with no obstructed view of the splash pad. A lot of families use this space to picnic, etc. Please donâ€™t block it with canopies! Put the canopies on the opposite side or on the side with the street/houses. Thanks for allowing us the opportunity to chime in. ðŸ˜Š |
| Restroom, shaded seating | Splash pad is great! |
| Restroom, more seating | Please open earlier! 9am |
| Restrooms and shade | The splashpad is awesome! Great job! |
| More shade | We love it ! |
| Restroom, more picnic tables for seating. | |
| A fence! I have an asd child and he runs | My son is a runner & no sense of danger. No fence near the street is really dangerous. |
| Restroom | |
| Fence, shade, bathrooms, no public showers sign | I saw a lot of little ones running off to the road or the ditch. Even a half fence would help parents out and make them feel safe. Also, we saw a man bathe himself. He did not take off his basketball shorts but he did use soap and did not have his own littles. |
| Restrooms, a bigger pad | |
| More picnic table seating | We LOVE this place... great for all our age ranges! |
| water fountain/water bottle refill station | |
| Restroom, seating | Thank you for thoughtfully planning this amenity in our community! |
| Shade canopy, more picnic tables, close restroom, area for toddlers | I love how clean it is kept. |
| More picnic tables, bike rack, water fountain or bottle refill station. | Thank you this is awesome |
| Restrooms, more seating | |
| Restroom | |
| A small pavilion for birthday parties would be nice. | |
| Bathrooms and closer parking | |
| More tables, restrooms, additional shade | We love the splash pad! Thank you for getting it going! |

| | |
|---|---|
| | Often there was groups of young adults fighting on the basketball courts and after they would all come to the splash pad. The people living in the homes next to the splash pad would be yelling and cheering the on. Made several of us moms very uncomfortable and we would leave with our young children. Also, people would be drinking beer and throwing it on the ground. |
| Definitely restroom for the kids! | |
| Didn't visit because there are pedophiles sitting across the street watching. The owner isn't one but he has friends that are. Documented or not, im from brenham & word gets around. Put a wall up for "safety " reasons. The little ones can easily run across the street if chasing a ball, etc. | I would love to have a picnic there without an oily feeling of my children being watched. |
| Shaded seating closer to the splash pad, fencing around the perimeter | |
| Closer bathrooms. More seating. | Love the splash pad great for little kids who just aren't as comfortable with being in a big pool. |
| More benches and a sidewalk with wheelchair access so grandmas and handicap people can watch the kids or access from the street closest; too hard for one to use a walker or other things and go over bridge rest rooms | So glad it is there. Many do not know about it. A location on the other side of town such as Jackson St Park area would be awesome! |
| Separate female and male bathrooms and security. | Would it be possible to have a security guard or police officer at the park. |
| Sunshade | |
| Seating and restroom | |
| restroom & Shade | my grandkids loved the splashpad. . . great addition to Brenham Parks! |
| Seating | I enjoyed watching the grands and they enjoyed it too |
| A restroom, and also shading. | |
| Coveted parent seating | Thank you for building this |
| Restroom | |
| Restrooms | |
| Open earlier (8 or 9am before it gets so hot), more tables, closer restroom | A railing or fence installed around the drainage ditch would be very helpful. I have little kids and they often wandered near the steep drop-off. I also saw several kids lose balls that blew into the ditch and not be able to retrieve them. |
| Restrooms and seating | |
| Restrooms, benches, sidewalks, more picnic tables. | Please add a fence near the giant ditch. Small children can take off and fall down into the large ditch. |
| More seating. Perhaps some grills | |
| Seating | Loved it for my little ones |
| Restrooms closer and more picnic tables under trees shade to space out | In the summer, open earlier in the mornings. |
| More tables/seating and some covered areas. Fence along the water line | please add a fence along the steep grade near the water/stream |
| Restroom/Changing Room | |
| I appreciate the Extra tables you added. We enjoy sitting under the trees on a hot day. Closer bathrooms would be nice but not necessary for my older child. | Thank you for adding this feature! We love the splash pad! |
| Sitting area and shade | |
| Seating and restrooms | No |
| restrooms, closer parking | The restrooms and parking seem to all be a bit far away. I actually had a birthday party there and everyone thought it was really nice except for the fact you have to walk so far to get to a restroom and parking is a bit far too. But the splashpad is excellent entertainment for kiddos. |
| expand the water features (a "tree house" or pirate ship), restroom, sidewalks, closer dry play equipment to further dry the kiddos while at the same time letting off more energy--works well at aquatic center | just thank you!!! |
| Restrooms, more picnic seating | Love love love splashpad. Kids live it too!!! |
| Restroom, seating, shade | |

| | |
|--|--|
| Cover from brutal sun | |
| Sitting area and shade | |
| Restrooms/changing area, more picnic tables, possible spots for food trucks | |
| Restrooms big enough for changing, sidewalks, covered area and extra seating, better parking | |
| Picnic tables, not too many bc my family likes to put a huge blanket out as well. | Thank you so much! My daughter absolutely loves the splash pad esp during this covid summer! |

Re: Discussion and Update on Modifications to Older Infrastructure at Fireman's Park and Henderson Park (specifically WPA Restrooms at Fireman's Park and restroom near Fink and Korthauer Fields at Henderson Park)

Parks Board Members

As we have completed all the major work at Henderson Park and Fireman's Park over the last few years we have taken a step back and evaluated some of the older infrastructure and looked at how we can make these parks even more attractive and user friendly without duplicating amenities.

We wanted to present these to you and gain any feedback you might have. At Henderson Park we have an abundance of restroom facilities in one area. With the modifications to the rental facility restrooms as well as the concession/restroom upgrades at the baseball field we have two updated restroom facilities with an awesome expanded concession as well. One of the older restroom/concession facilities which is located beyond the centerfield wall and right next to the two smaller softball fields remains open. With its isolated location and hard to get too access it has become a loitering spot for unwelcome visitors. With hard visibility and lack of a great access point we have seen vandalism and a place that promotes criminal activity. We feel that this building can be better utilized for an open-air shade cover in the future and open this area up. Also, by keeping it open we have to maintain it daily when there are other updated restrooms/concessions within walking distance. We feel that by demoing this structure we will promote a better park with less maintenance and attract positive usage during the week and weekends. If this route is chosen we would subsequently remove the batting cage between the baseball outfield wall and 3rd base of Korthauer Field and add a sidewalk that would connect the two small softball fields to the hike and bike trail which would place park visitors on a direct path to the newly upgraded restrooms and concessions. We would also remove the old scoreboard posts associated with Henderson Field, Korthauer and Finke Fields as they are no longer used, and the boards have been removed several years ago. With these changes we feel it will make the park safer and open things up as well as promote positive usage in the area behind the baseball field.

All work concerning demo will be done in-house by the City of Brenham Street Dept. during winter months and the addition of the sidewalk will be constructed by the City's concrete contractor as funds become available.

Henderson Softball Concession/Restroom Facility

Path to Hike/Bike Trail and New Improvements from Softball Fields

In Fireman’s Park we originally had plans to revitalize the WPA Restrooms located between the pavilion and N. Park St when we constructed the new 3-building restroom facility. Due to the higher than expected bids along with the contractor issues all funds were directed towards making the new restrooms as nice as could be. Since the opening of the new restrooms we have locked the WPA restrooms due to them being hard to maintain and to lessen vandalism with toilets, paper towel dispensers, soap dispensers, stalls, etc. These bathrooms are very old and always held a lot of moisture making them undesirable. We wanted everyone to utilize the new HVAC restrooms as they were centrally located. Our original plan was to revitalize the WPA restroom facility and save the exterior as much as possible but utilize the structure in some way. Our first thought was to re-brick each corner to make four columns and keep the roof to make an open-air facility where we could level out the concrete pad and utilize for an educational kiosk area or place a couple picnic tables under it. This way we could keep the historic look and significance but repurpose the building. If you have any ideas or like this one, please share with our staff. This will however be an expense and we could look into this regarding BCDC funding in 2021-2022. Currently the structure needs a new roof. We are unsure how tearing into this old structure will affect the footprint and really usure at this time of a true cost. We can definitely get

some options but at this time we will plan on removing all fixtures and stalls as well as other non-load bearing walls to get ahead of this and have a clean slate on the inside.

WORK SESSION

3. Discussion and Presentation Related to the Little Free Library Program

Community Services Specialist Crystal Locke informed the Board that the Little Free Library (LFL) Program is a non-profit international organization that promotes community, creativity, and reading with individual yard libraries on public and private spaces. Locke introduced Suzy Hankins, Fortnightly member, and Owner/Manager of the Ant Street Inn to explain the project.

Hankins informed the Board that in 2018 she registered the first two official Little Free Libraries in Brenham. One is located at the Backlot Gallery behind Ant Street Inn and the other at Main Street House on Main Street. Since then four more Little Free Libraries have been added in Brenham. Hankins provided an interactive map that showed the LFL locations in Brenham.

Hankins reported that she organized the Brenham BookFest on Labor Day weekend. Hankins goal was to raise money for the LFL grant fund, which supports Little Free Libraries in the community. Hankins noted that the cost of the LFL ranged from \$350-\$500.

Hankins proposed to partner with the Parks and Recreation Department to house Little Free Libraries in the parks. The Brenham Parks and Recreation Department would be responsible for selecting a site for the LFL, working with the Manger of the LFL grant fund to select library style, installation of the LFL, and the physical maintenance of the LFL.

Hankins also noted that the Fortnightly Club of Brenham agreed to assist with the project and would be responsible for the monies raised for the LFL grant. It would also work with the Manager of LFL grant fund to purchase the materials required for installation, provide books for the LFL, and maintain the books at each LFL by checking the libraries a minimum of one time per month.

Chairman Bill Betts asked Hankins to elaborate on the physical maintenance of the LFL for which the Parks and Recreation Department would be responsible. Hankins replied that she was referring to any type of physical labor (i.e. if a library were knocked over, City staff would re-install).

City Manager James Fisher thanked Mrs. Hankins for presenting this item to the Board. Fisher expressed his enthusiasm for the program and support for implementation of the LFL program in City parks.

Chairman Bill Betts asked staff to add this item to the next agenda for implementation and thanked Mrs. Hankins for the idea to add literacy to the parks.

Subject: Little Free Library Program

Date: October 5, 2020

At the June Parks and Recreation Advisory Board (PARB) meeting Suzy Hankins, Fortnightly Club member and Owner/Manager of Ant Street Inn, proposed to partner with the Parks and Recreation Department to house Little Free Libraries (LFL) in Brenham parks to promote literacy in the community. The cost of a LFL ranges from \$350-\$500.

Hankins goal was to raise funds at the Brenham BookFest event which was held on September 6, 2020 for the LFL grant fund. The Fortnightly Club of Brenham has agreed to assist with the project and will be responsible for the monies raised for the LFL grant fund, purchase materials required for installation, provide books for the LFL, and maintain the books at each LFL by checking the libraries a minimum of one time per month.

The Brenham Parks and Recreation Department will be responsible for selecting a site for the LFL, work with the Manger of the LFL grant fund to select the library style, install the LFL, and the physical maintenance of the LFL.

Updates since June meeting

- Mrs. Hankins was contacted by a resident who offered to build the libraries for park sites including donating the materials and time to build. The resident found LFL plans online that have been tested and approved by the LFL organization. The cost of registering the library with LFL will then depend on the charter sign which can range from \$49-\$80 dollars.
- BookFest occurred early-September and raised \$80-\$100 for the LFL grant fund
- Several individuals and businesses have contacted Mrs. Hankins about how to sponsor LFL on school district and private property if the opportunity arises
- Hankins discovered several registered LFL in the county – Burton and Chappell Hill

Staff recommends approving the Little Free Library Program in Brenham Parks. Once approved, all parties involved can begin coordinating designs, creating a plan of installation, and promoting LFL.

Subject: 2021 Parks and Recreation Fee Schedule
Date: October 9, 2020

Per Chapter 19, Parks and Recreation, of the Code of Ordinances of the City of Brenham fees for all parks and recreation activities shall be set by resolution of the City Council. All such fees shall be posted, where applicable, and kept on file with the City Secretary.

The paragraph below gives a brief summary as to when these items were last presented, and action taken by the board.

At the November 13, 2019 Parks and Recreation Advisory Board (PARB) meeting, staff reviewed the current Parks and Recreation rate schedule with the Board and recommended an increase in the addition of inflatables for the fall/spring competition pool parties. Proposed rates were recommended by the PARB and approved by Council in January 2020.

Below is an outline of the recommended changes for 2021.

- Staff is presenting to increase the cost of Henderson Field from \$100 to \$175 per day; this will match the cost of Schulte Field
- Staff recommends eliminating the field light fee of \$50 per field per day and increasing the cost per field rental by \$25
- Clarify League fee language and add "Local" League fee per player

Included in this memo is the 2021 Parks and Recreation Fee Schedule. Recommendation from the Parks and Recreation Advisory Board will be taken to City Council in December for approval before publishing rates.
