2. Citizens/Visitor Comments

There were no citizen comments.

WORK SESSION

3. Presentation and Discussion Related to the Brenham Family Park Design and Construction

Public Works Director Dane Rau opened the discussion. Rau explained that staff was moving forward with pre-construction deadlines such as conducting an archeological survey, decisions related to the retention/detention pond, and a professional services contract with Jones | Carter.

Rau introduced Erin Williford and Jessica Dennis with Jones | Carter to share the history and current developments related to the retention/detention pond. Williford referenced the Brenham Family Park (BFP) Master Plan completed in February 2018 and noted the initial concept of having one large pond developed on-channel. Williford explained the two types of permits through the U.S. Army Corps of Engineers (USACE): (1) individual permit and (2) nation-wide permit and elaborated on the process, restrictions, and turnaround time.

Williford then discussed options for a detention/retention pond. Williford explained USACE would not allow one large pond on stream because of the stream classification as determined by the USACE. Williford said that USACE performed a site visit to BFP and determined the stream to have a perennial flow, which means that stream impoundment is not permissible under an individual permit. Next, Williford said that a nation-wide permit would allow a pond on-channel but only allows to impact up to 300 linear feet of the channel. Williford stated that one of the goals for this project was to provide all the detention needs for the park and the surrounding land, and this option does not meet that goal. Williford explained that this brought us to the option of off-channel ponds, which would produce fewer impacts than an on-channel pond and would still allow park amenities included in Phase I(a), such as parking lots, trails, and restrooms.

Staff displayed contour maps and park renderings of the general vision moving forward with the project.

Bosse questioned the size of the off-channel ponds. Williford replied that the ponds to the east and west of the stream are approximately five acres, and the pond to the north is about three acres.

Rau added that the professional services contract would be included as an agenda item at the next Brenham Community Development Corporation (BCDC) meeting to secure additional funding to move forward with Jones | Carter.

4. Discussion and Update on Parks and Recreation Projects Funded in FY20-21

Public Works Director Dane Rau presented this item. Rau explained to the Board that the Brenham Community Development Corporation (BCDC) approved \$1,019,500 for various park and recreation projects.

Citizen Michael Balcerek commented on the disc golf course at Hohlt Park and the probability of moving to the Brenham Family Park. Balcerek explained that the current location lacks difficulty and added several disc golf holes are not usable during the soccer season because cars park behind the Amphitheatre. Rau responded that the City is looking to relocate the disc golf course to the Brenham Family Park.

5. Presentation and Discussion of Various 2020 Sports Tournaments Held in the City of Brenham Parks

Parks Superintendent Casey Redman presented this item. Redman presented the Sports Tourism spreadsheet, which listed tournament dates, number of teams, and field rental information. Redman explained that the fields were closed from mid-March to mid-June due to COVID. Redman added that tournament directors received the City's "Return to Play" plan to implement when the areas reopened for tournament play.

Redman stated that Brenham Parks hosted 34 tournaments with 695 visiting teams in 2020 compared to 36 events with 583 visiting teams in 2019.

Redman also presented the tournament schedule for 2021 and noted that there are 62 tournaments scheduled.
